PROJECTS

Research Project: Influence of Education on Labor Force Participation Rate
Georgia Institute of Technology · August 2023 - December 2023
· Cleaned and structured multiple large datasets using Python, Pandas, and NumPy, enhancing data accuracy and usability for downstream analysis.
· Developed and refined multiple linear regression models in Stata to isolate and quantify the impact of education on labor force participation across U.S. counties, while controlling for demographic and economic factors.
· Applied statistical inferencing to fine-tune models, improving performance and identifying key indicators for policy development.

COURSEWORK

Econometric Analysis
Georgia Institute of Technology · 2023 · Quantitative Analysis, Stata, Modeling

Introduction to Object-Oriented Programming
Georgia Institute of Technology · 2023 · Java, Programming & Problem-Solving Skills

EXPERIENCE

Contract Content Writer
Reworkd AI   June 2023 - September 2023, Remote
· Strategized and developed diverse content, including blog articles, social media posts, and product documentation, highlighting advancements in Reworkd's product, AgentGPT, and generative AI agents.
· Crafted compelling visual assets for content pieces using Canva and Midjourney, enhancing reader engagement and comprehension.
· Consistently adhered to and managed a rigorous content development schedule using Notion, ensuring timely content delivery and updates.

Blogger
CybrCo   November 2022 - Present, Georgia
· Boosted organic traffic to 2,000 monthly readers through targeted search engine optimization.
· Utilized Google Analytics, SEMRush, and Adsense to analyze website traffic and make data-driven decisions regarding content strategy.
· Developed long-form blog content focused on the latest advancements in generative AI technology.

Volunteer Community Manager
Reworkd AI   March 2023 - Present, Remote
· Oversees a Discord community of 25,000 members for an SaaS AI product, maintaining a positive and inclusive environment for diverse participants.
· Solicits and compiles user feedback, facilitated the resolution of numerous technical issues, and addressed a broad spectrum of product-related inquiries, facilitating communication between customers and founders.
· Enforces server guidelines and rules to ensure respectful interactions and reduce incidents of harassment or spam.
